After two years of virtual meetings, ECG finally brought back the physical symposium on ‘Living Well with Epilepsy Beyond the Pandemic 2’ in conjunction with Purple Day on 26 March 2022 held at the National University of Singapore Society (NUSS). This unique program was enriched by experts in the field of neurology, pharmacology and psychology who shed light on the basic and different aspects of epilepsy care. In addition, this symposium also provided an excellent opportunity in hearing some heartfelt personal accounts from persons with epilepsy and their caregiver.
